

FIRST SIGHT SENTRY

Now, more than ever, protecting your associates from airborne diseases is a critical tool for keeping your enterprise in operation. The First Sight Sentry provides a Point Of Sale workstation that conforms to OSHA and CDC guidelines for at-risk associates.

- Position at the entry to your store and service your customers without the need for them to enter and bring potential contaminants into the building.
- All surfaces are non-porous and easily sanitized as needed.
- The associate and customer are protected with a full-height sneeze guard and the cabinet houses a deep-drawer pass through for touchless transfer of items.
- Sized to house most common POS equipment (shown for illustration only), the First Sight Sentry can be customized to your equipment and specifications.
- The public side of the cabinet features a ledge to hold card reader for payments.
- The caster wheel base and inset power receptacle allow for easy relocation and powering.
- Optional Lithium Power Pack for maximum portability.
- Optional full-color graphic wrap.
- Optional adjustable shelf with solid front panel.
